Glass Supporting System

# Crystalline<sup>®</sup> railing system

## SISTEMA INTEGRADO DE BARANDILLA PANORAMICA

Este sistema se compone de cuatro elementos diferenciados:

El sistema de fijación al suelo. Se trata de un perfil de aluminio de acabado y características especiales que nos sirven de BASE o GUÍA para incorporar el cristal.

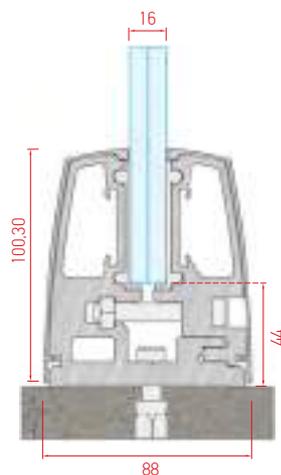

El segundo, el cristal. Aconsejamos cristal de seguridad triple. El sistema admite un grosor de 16mm y una altura de 1000mm.

Tercero, el embellecedor, que nos da un acabado ovalado. Es la clave de la fácil y rápida colocación de esta barandilla. Este embellecedor se ofrece en una amplia gama de colores y acabados, incluidos anodizados inox y colores imitación madera y por último, el pasamanos que nos proporciona robustez y estabilidad al conjunto.

## CUALIDADES

- Estética inigualable.
- Visión panorámica
- Fácil limpieza y mantenimiento
- Soluciones de montaje económico
- Fabricado según prototipo
- Sistema registrado bajo patente

F85-1K1

F85-150A

# Tipo B

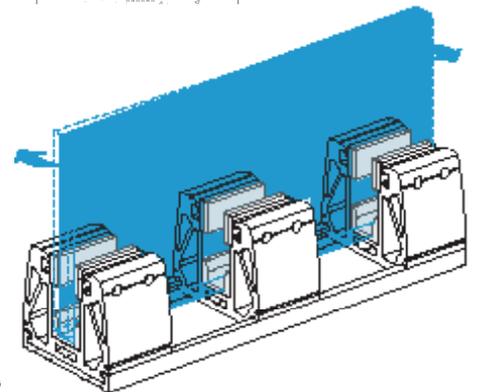

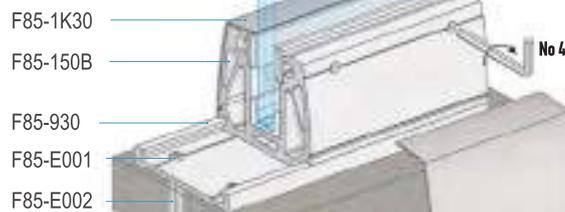

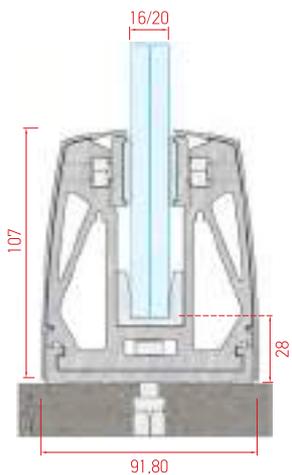

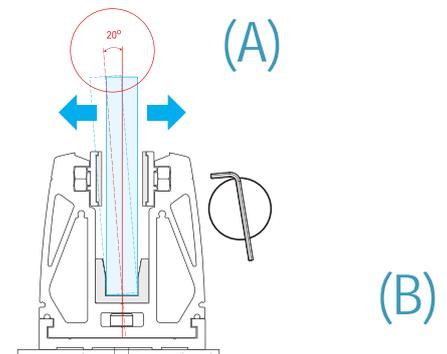

## SISTEMA REGULABLE DE BARANDILLA PANORÁMICA

Este sistema regulable se compone de un perfil de aluminio especialmente diseñado para la fabricación de una barandilla con cristal panorámico en una superficie ya acabada o rematada.

Las bases se insertan en un segundo rail guía para una mejor sujeción y alineación de las mismas. A continuación se colocan los embellecedores o tapas de aluminio. El sistema acepta cristales de seguridad triple de grosor 16/20mm y una altura máxima de 1000mm.

## CUALIDADES

- Sistema regulable en los dos sentidos (vertical A y horizontal B).
- Con rail-guía de fácil instalación. Este rail nos sirve para insertar las bases de aluminio.
- Puntos de presión preparados para la sujeción de los cristales a las bases.
- Perfil adaptable a cristal triple de seguridad 16/20mm.
- Según prototipo UNI EN 10807 & VF P01 - 013.
- Sistema consolidado bajo patente

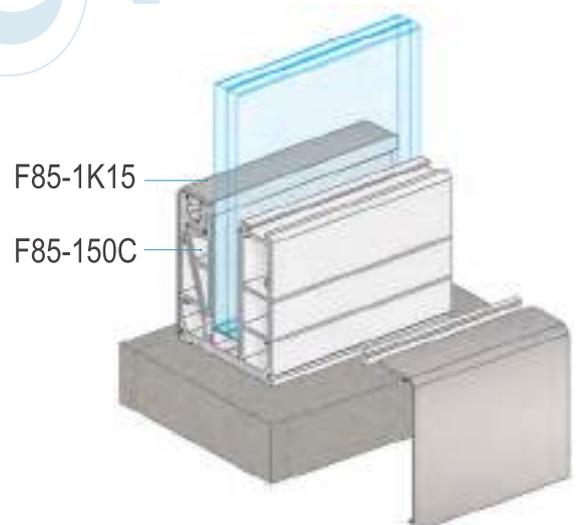

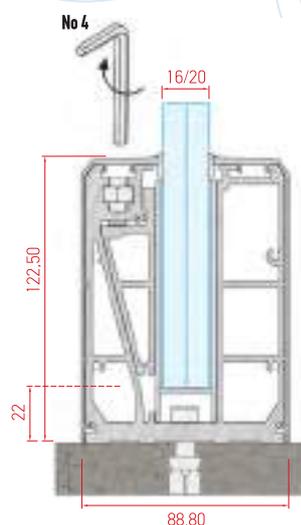

## SISTEMA INTEGRADO DE BARANDILLA DE CRISTAL.

Sistema de barandilla de cristal y perfil de aluminio. Las bases de fijación se adaptan a cristales de seguridad triples 16/20mm y altura hasta 1000mm. Cubrimos con un perfil embellecedor las bases de aluminio.

Este perfil está especialmente diseñado con una línea más rectangular y que se insertan de tal modo que en el caso de sustitución de los cristales por rotura o deterioro, estaría preparado para no provocar desperfectos

## CUALIDADES

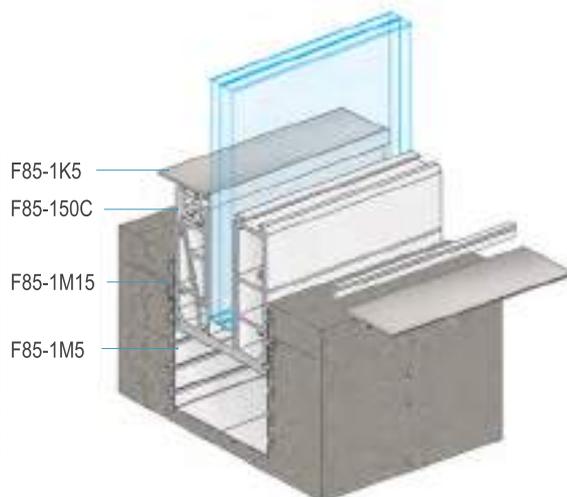

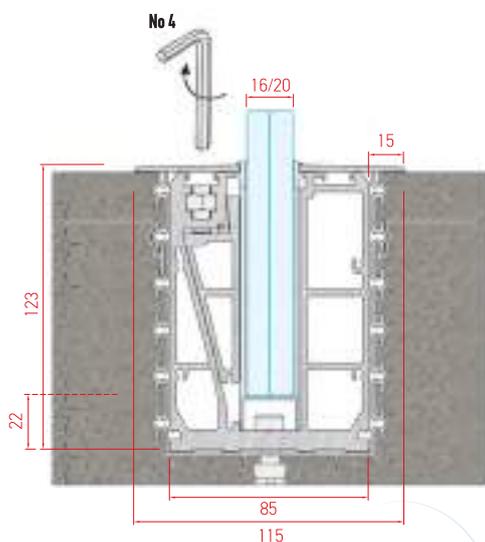

- Sistema muy versátil que sirve para cualquier tipo de construcción (interior, exterior)
- Fijación especial del cristal al perfil por puntos de presión, que le aprisionan en el mismo.
- Adaptable a cristal de seguridad triple 16/20mm.

## SISTEMA DE BARANDILLA DE CRISTAL FIJADA BAJO SUPERFICIE

Este sistema permite aún más la visión panorámica de paisaje. Nivelado a la misma altura de la superficie final. Las bases incorporan unas gomas y tapas que permiten que el sistema quede hermético. El sistema admite cristal de seguridad triple de 16/20mm y altura de 1000mm.

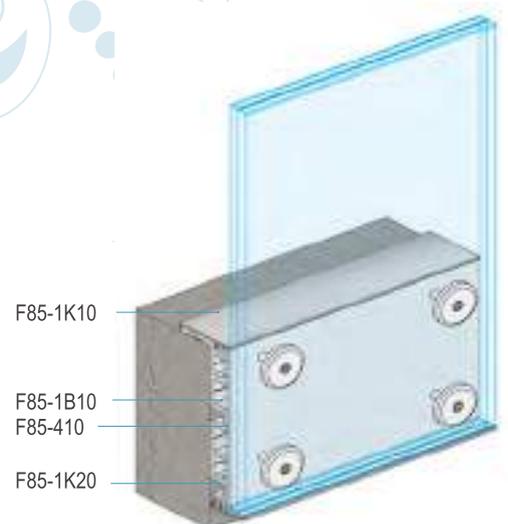

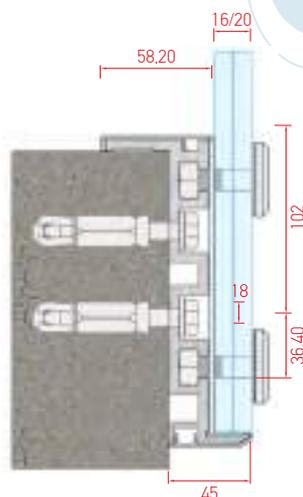

## SISTEMA DE SUJECIÓN EXTERIOR PARA BARANDILLAS DE CRISTAL

Las bases de sujeción van fijadas en un perfil especial de aluminio que se atornilla al forjado. Este está preparado para recibir un cristal de seguridad de 16/20mm de grosor y una altura máxima de 1000mm. El cristal finalmente queda atornillado de una manera sencilla y segura al exterior.

### CUALIDADES

- Estéticamente moderno
- Vistas sin obstáculos
- Cristales de seguridad de 16/20mm

# Tipo Ds

## INOX SISTEMA EXTERIOR DE BARANDILLA Y ESCALERAS

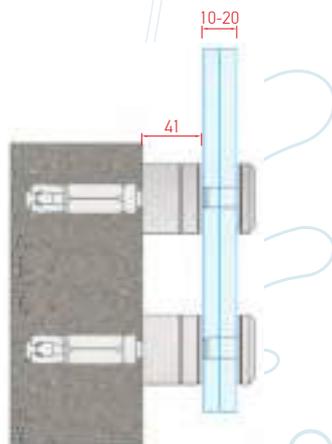

Para la sujeción exterior de barandilla y escalera con cristal proponemos el sistema MINI de acero inoxidable satinado.

El sistema se compone de unas bases de sujeción de diámetro  $\varnothing$  40mm a su vez nos da la posibilidad de incorporarlo bien en escaleras o balcones de cristal.

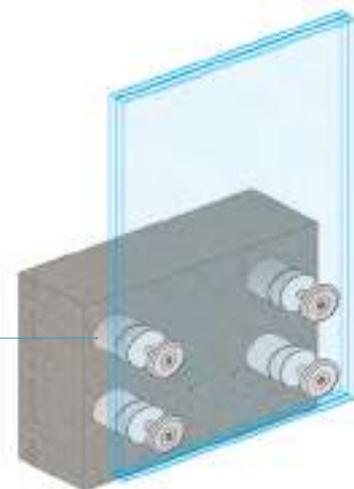

### CUALIDADES

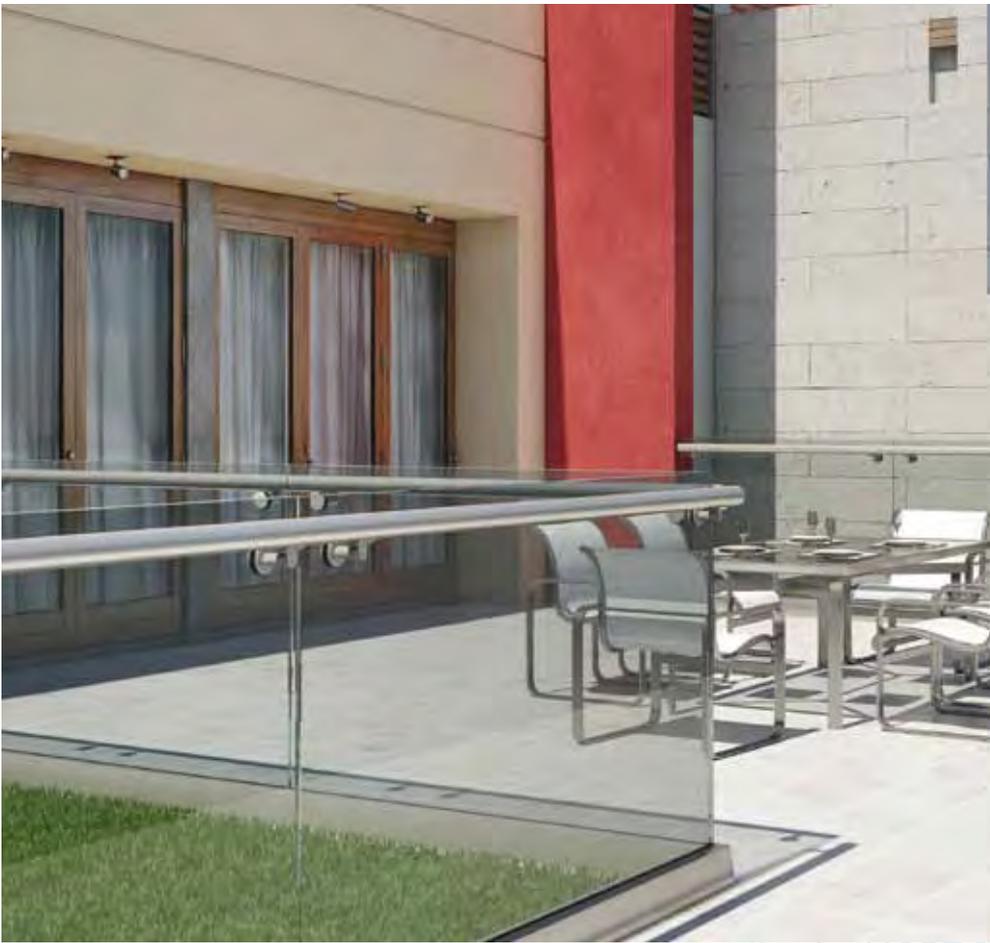

- De fácil instalación.
- Especialmente diseñado para balcones.
- Preparado para cristal de seguridad de 10/20mm (triple seguridad)

F85 - E001  
F85 - E002

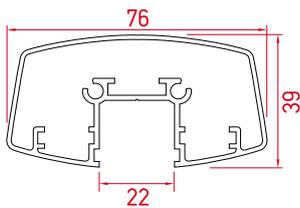

4149

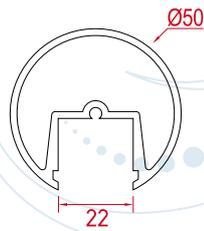

El sistema CRYSTAL LINE se presenta solo con cristal de 16/20mm (triple de seguridad) con acabado pulido.

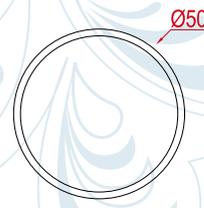

Aluminco intentando proponer diferentes acabados, presenta 3 pasamanos, todos ellos diferentes en diseño y medida. El redondo de Ø 50 (imagen 1), ovalado 76mm (imagen 2) y redonda con soporte exterior que sujeta pasamanos completamente redondo Ø50 (imagen 3 y 4) variando el soporte que le sujeta al cristal. Sus acabados y colores pueden ir en armonía con el resto del conjunto.
